ESSAY WRITING CONTEST

Continued tradition from 2019. Participants wrote essays in Russian, Kazakh, English.

EXCERPT FROM THE ESSAY WRITING CONTEST (YPW 2020)

Essay Prompt: "If you had a chance to redirect the nuclear weapon's global budget, where/in what would you invest?"

LAYLA ZHANGIRKHANOVA FROM 10 GRADE:

“Every day, the problem of increasing waste and pollution of both land and oceans is becoming worse and worse. According to experts, the volume of garbage has reached over 2 billion tons.(...)The money from nuclear weapons can be spent wisely on cleaning up the entire world, which will allow us to extend our existence on it.”

“I strongly believe that moving the focus of countries from nuclear weapons to real problems and investing money in their solution can completely change our lives. We will be able to live without fear of tomorrow, in peace with society and with ourselves, where everyone can take responsibility for their actions and contribute to the improvement of the world, the main thing is to get rid of the nuclear weapon as quickly as possible.”

We can make a change!
